## **XL VIRTUAL™ BeOn®**

Push-To-Talk Power Beyond Regional Coverage

### Experience Public Safety's most advanced P25 Push-To-Talk over Cellular application

Our breakthrough BeOn mobile application transforms your everyday device into a powerful communications tool. Use XL Virtual BeOn as a stand-alone solution to connect teams or as an extension to your P25 LMR network. BeOn delivers industry-leading capabilities to existing users' smartphones, tablets and PCs. Essential P25 features like group calls, end-to-end encryption, and emergency calls, combine with advanced features like geographic mapping for superior situational awareness. Just like the rest of our XL Radios, the BeOn mobile app is:

#### **EASY TO USE**

The XL Virtual's intuitive User Interface design allows customers to rapidly deploy the solution to its users.

#### **POINT-TO-POINT SECURE**

P25 standard AES encryption keeps your communications safe from threats.

#### **BACKED WITH ALL-IN, 24/7 SUPPORT**

Deploy XL Virtual quickly with self-installation or with the assistance of the L3Harris team. Available technical assistance and software upgrades keep the XL Virtual BeOn always up to date.

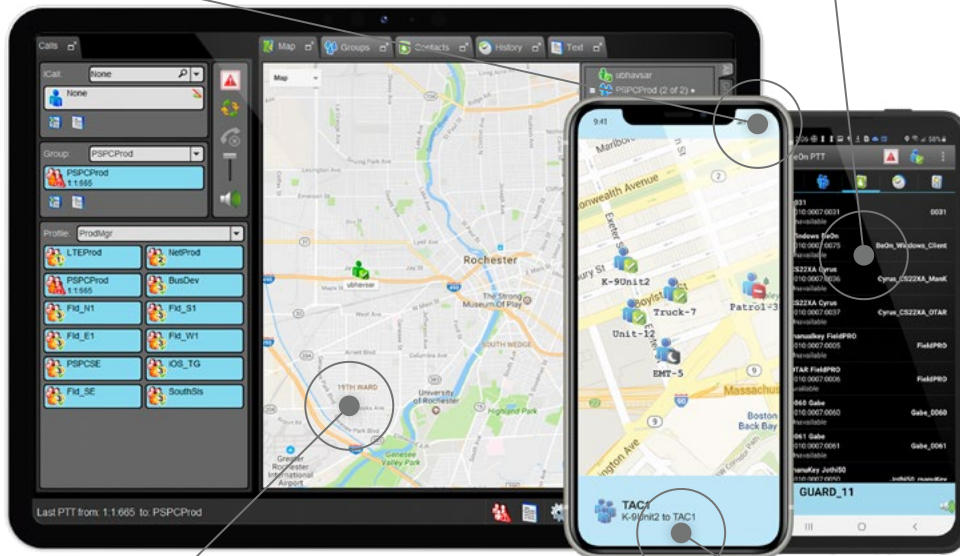

#### **Fast, intuitive access to key features:**

- > Uses Wi-Fi and LTE regardless of cellular provider
- > Android™ and Apple® iOS smartphone, tablet and Windows® PC compatible
- > End-to-end voice and data encryption
- > Locate and track availability of in-field staff
- > Voice and data sharing at the push of a button
- > Instant replay of missed calls and automatic call logging
- > Announcement group calls
- > Priority / preemptive support
- > Uses the existing BeOn application in your VIDA® Core
