IRONCLAD CONNECTIONS FOR THOSE WHO KEEP OUR WORLD RUNNING

Critical Communications for Utilities

CONNECTIONS YOU CAN'T OUTFRAN

Built on the same battle-proven L3Harris national defense technologies in use for decades around the world, we deliver utility solutions to support critical grid operations and performance. You get unparalleled capabilities, secure and advanced functionality along with broadband connectivity.

WHAT IT TAKES TO BE ALL IN

Extreme environments and challenging outage events are inevitable. We built an 80-year legacy on listening to what you need and then delivering resilient, unflinching connectivity. No limits. No excuses. Designed by and for those on the frontlines. Built for any mission.

Connect where others can't

Extend your coverage with LMR industry-leading multiband and portable radios with exceptional P25 connectivity via LTE, Wi-Fi®, Bluetooth® and built-in GPS. Dead zones and inaudible conditions? Not an issue. L3Harris solutions are P25 compliant and feature-packed with the advanced technologies that you want at a surprising value that fits your budget. Connect in more ways and in more places backed by 24/7 expert support.

Future Ready

When it comes to security, settling isn't an option. As Utilities modernize, we address evolving and ongoing challenges with a comprehensive portfolio of security products and services to protect your network and devices through military-grade end-to-end encryption and security protocols. Making power grids smarter and more resilient means P25 network hardening, threat detection and jam-resistant mitigation.

Hardworking solutions that keep up with you

Scalable systems, applications and devices keep your team connected with actionable intel in-and-out of network.

We champion open networks because they give you more flexibility and control. Our P25 devices and systems will seamlessly connect to other agencies, smoothly integrate with your existing infrastructure and give you room to add capabilities in the future.

SECURING THE WORLD AROUND US

L3Harris is an agile global aerospace and defense technology innovator, delivering end-to-end solutions to meet customers' mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains.

- > \$18+ billion in annual revenue
- > 47,000 employees including 19,000 engineers and scientists
- > 350+ locations and customers in 100+ countries
- > More than 1 million tactical radios delivered worldwide
- > Over 3,000 patents earned

L3HARRIS
FAST. FORWARD.

DID YOU KNOW?

The **Trusted Partner for Utilities**
Across North America

- > 4 of the 10 largest U.S. Utilities are L3Harris radio customers
- > Mission-critical communications for 30+ North American Utilities

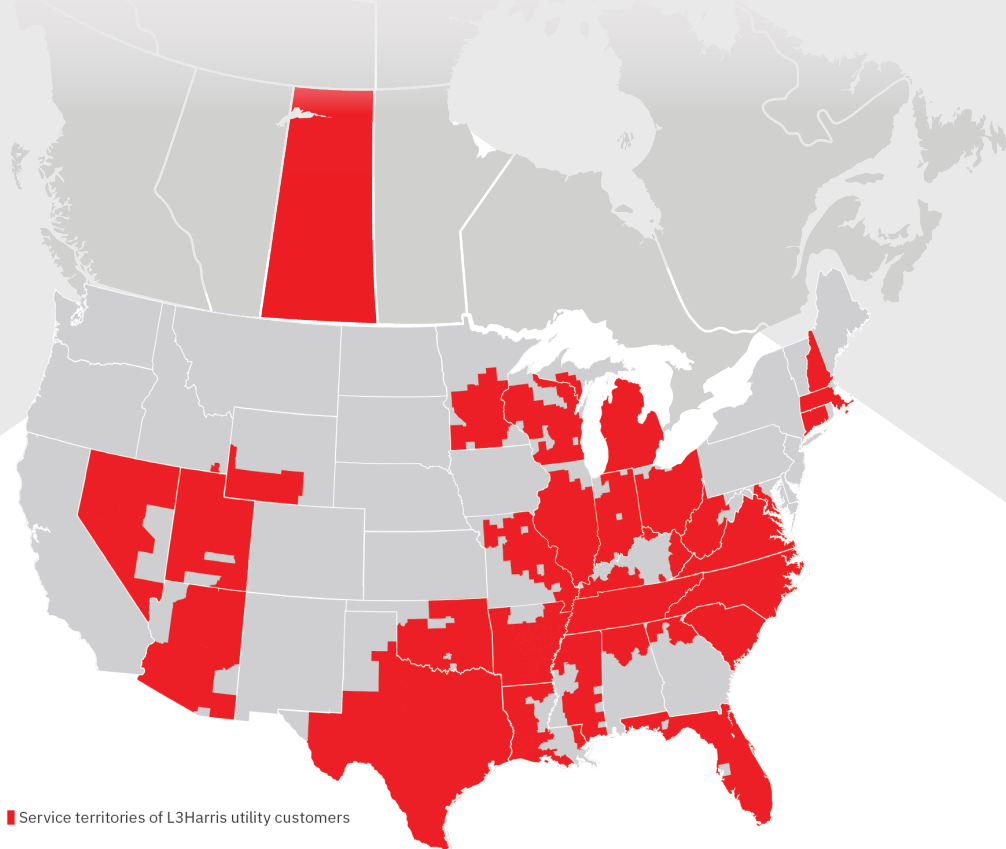

The largest **IOUs, Municipal-owned and Co-ops** trust L3Harris to protect their grids with mission-critical communications.

Our systems, like the one deployed for American Electric Power (AEP), cover large regions of the country. With an East and West region, **the AEP system spans more than 11 states and 250,000 miles.**

L3HARRIS RADIO SYSTEMS IN NORTH AMERICA
