

L3HARRIS[®]
FAST. FORWARD.

THE XL ONBOARD™ SERIES OF MOBILE P25 RADIOS

Relentlessly Reliable. Road-Ready.

YOUR VEHICLE JUST GOT MORE POWERFUL

Your job takes you into challenging locations, sometimes far from your team. With the different terrains and demands you face, you'll know the XL Series of Mobile Radios will help keep you connected to the people and information you need to do your job well.

Right out of the box, the single-band XL 185M and multiband XL 200M are ready to deliver clear, reliable communications. Built-in LTE connectivity transforms these rugged P25 mobiles into an on-the-go communications hub, providing hot spot capabilities to help keep you connected through an LMR or LTE network where you're needed.

The single-band XL 85M mobile provides secure, interoperable communications with operational needs across multiple communications protocols. The modular design offers flexible mounting configurations for a variety of vehicles, with a fully integrated Bluetooth® interface, Wi-Fi connectivity and optional GPS location reporting.

XL 200M | XL 185M

LTE-CAPABLE MOBILES FOR MISSION-CRITICAL COMMUNICATIONS

Field tested and battle proven, the multiband XL Onboard 200M and single-band XL Onboard 185M — which are both FirstNet Ready® — offer LTE capability including built-in Wi-Fi, Bluetooth® and GPS connectivity. Hear and be heard via five speaker outputs paired with our advanced noise cancellation technology. Thoughtful modular design and an intuitive interface free your focus for the road ahead.

XL SERIES OF MOBILE RADIOS KEY FEATURES

AUDIO EXCELLENCE

Includes up to five speaker outputs and a tough, ergonomic digital microphone that delivers crystal clear audio and advanced noise cancellation.

STANDARD WI-FI, BLUETOOTH AND GPS

Enhanced connectivity options come standard so you can go more places.

SECURE, RUGGED AND RELIABLE

Multiple encryption options keep communications protected. Meets MIL-STD-810G standards for tough conditions.

INTUITIVE USER INTERFACE

High-visibility LCD with programmable buttons and simple menu access.

MODULAR DESIGN

A standard rail-mount system supports flexible mounting configurations, reducing the total cost of ownership.

NATIONWIDE LTE RIGHT OUT OF THE BOX

Experience instant connectivity with a pre-installed SIM card, exclusively for XL 200M and XL 185M radios.

When your mission requires you to be mobile, you need a flexible, high-powered radio that can move with you.

XL 85M

INTRODUCING THE XL ONBOARD 85M

The single-band XL 85M mobile provides secure, interoperable communications for utility, transportation and first responders with operational needs across multiple communications protocols. The intuitive interface and high-visibility color display allow users to stay more focused on the job and less on the road.

CH and CH2 Configuration Options

- > Front or remote mount options
- > Support for multiple control heads for a customer's operational needs
- > Interface to XL-RHHC for the same functions as the CH2
- > Compatible with current accessories

WHICH MOBILE IS RIGHT FOR YOU?

The High-Performing XL 200M

Experience multiband interoperability and seamless communication across LMR and broadband, your on-the-go hub for critical communications.

The Essential XL 185M

Bridge the gap in your mobile radio lineup with the P25 single-band XL 185M for advanced connectivity and rugged resilience in every mission.

The Reliable XL 85M

Elevate your mission-critical communications with a mobile offering unparalleled reliability and a suite of advanced features, ensuring you're always connected and in control.

With the XL Series of Mobile Radios, you're ready to go with decades of L3Harris experience behind you.
