

L3HARRIS®
FAST. FORWARD.

TWO47™ DEVICE MANAGEMENT

Keep your devices up to date without tying you down.

Take control of your entire fleet through a convenient online portal.

With Two47™ Device Management, you can update radio firmware, manage personalities, install feature files, and monitor the status of radio updates without ever pulling the radio out of service. You can conveniently carry out these tasks from any location with a broadband connection while also receiving real-time device status data. Two47 Device Management ensures that your XL devices remain current and secure against emerging cyber threats.

Two47 Device Management provides flexibility, convenience and cost savings. All Two47 solutions share these features:

OPEN

Engineered for interoperability and access, anywhere, any time.

ADAPTABLE

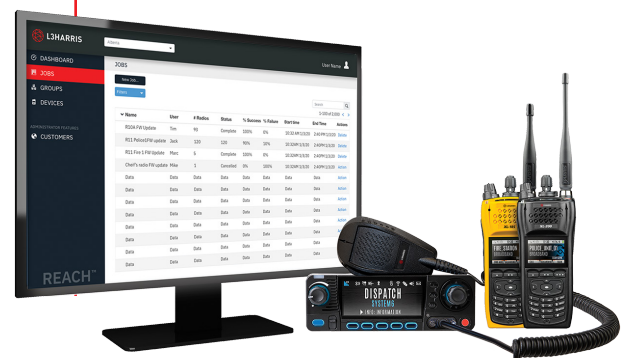

Designed to be configured to your needs and budget.

UNSTOPPABLE

Fortified for unflinching reliability and security.

Open standards for flexible, best-in-breed features:

- > Manage and update your devices in real time, from anywhere
- > Make critical device firmware updates without taking physical assets out of service
- > Available over any broadband connection
