## INDO-PACIFIC REGIONAL SUPPORT CENTRE

L3Harris Australia excels as a prime defence contractor, providing integrated tech solutions for over four decades. Specializing in technology that connects and shapes operations spanning multiple domains: space, air, land, sea, cyber and first responders.

L3Harris' IPAC Regional Support Centre (RSC) is set to become the pivotal hub for supporting the ADF, NZDF, regional military allies and first responders. It will offer:

- > Enhanced supply chain resilience with in-theatre spare parts and inventory.
- > Swift turnaround for vital battle space communications systems through local Maintenance, Repair and Overhaul (MRO) services.
- > OEM-certified assistance powered by a skilled Australian workforce.
- > In-country repair and maintenance capabilities for foreign Controlled Cryptographic Items (CCI) equipment.

### RSC FAST FACTS

#### **OEM CERTIFIED MRO**

15 years high mission assurance

#### **25+**

Years regional knowledge, support ADF, NZDF, IPAC region

#### **40%**

Defense veteran workforce

#### **International Partner**

Support U.S. DOD regional sustainment framework

#### **Proven Capability**

Equipped with multi-vault CCI handling capability

#### **Global Supply Chain**

Expand repair networks for warfighting domains

**L3HARRIS®**

FAST. FORWARD.

## RSC OBJECTIVES

- > Timely in-theatre support of ADF, Five Eyes Nations, coalition forces and first responders.
- > Reduce Controlled Cryptographic Items (CCI) maintenance turnaround time by leveraging the proven and integrated CCI MRO capability in Brisbane, Australia. The RSC activation will result in critical CCI from the APAC region being repaired locally, with the benefit being reduced turnaround time by six months in some use cases.
- > Mission assurance through leveraging the established MRO and improving the effectiveness and efficiency of MRO capabilities for rapid response and regeneration of readiness.
- > Strengthen regional partnerships by being an international industry partner, to the U.S. Defense Regional Sustainment Framework (RSF), a blueprint aimed at empowering a globally connected, distributed and resilient MRO ecosystem.
- > Strengthen Defence Industrial Capability through developing a more capable, resilient and competitive Australian MRO capability. Expand our domestic onshore collaborations with our small and medium enterprise (SME) supply chain and by engaging in joint workforce development programs and exercises to enhance interoperability in sustainment operations.
