# TWO47 MCX™ SOLUTION

Mission-Critical Voice, Data and Video

## Experience the Most Advanced Solutions Built for Mission-Critical Communications

Our breakthrough Two47 Mission Critical Services — or, Two47 MCX™ — transforms your everyday communication device into a mission-critical communications tool. Use Two47 MCX as a stand-alone solution to connect teams and converge with your LMR network for the most reliable mission-critical grade communication system. Two47 standards-based MCPTT, MCDData and MCVideo solutions are available on radios, smartphones and PCs. Similar to the L3Harris VIDA® solution for P25, the Two47 MCX solution is:

### STANDARDS COMPLIANT

Two47 MCX solutions are built on 3GPP standards, ensuring superior performance for mission-critical voice, video and data communication. Seamless LTE integration and traffic prioritization ensures a secure, dependable experience and smooth migration to advanced cellular technologies without sacrificing reliability.

### AN INTEGRATED ECOSYSTEM

These solutions integrate effortlessly with your existing operations through comprehensive interfaces. XL Radios enable seamless communication across MCPTT and P25 networks on a single device, delivering unmatched resiliency by uniting two mission-critical networks.

### SCALABLE

Two47 MCX scales seamlessly to support over 50,000 users. Deployment options like geo-redundancy or high availability ensure uninterrupted service, keeping operations reliable and secure. The User management interface simplifies provisioning and maintenance with multi-level organizational support.

### Priority access to key features:

- > MCPTT: Group call, private call, emergency call, scanning and multitasking
- > MCDData: Messaging, media sharing and dispatcher location and tracking
- > MCVideo: Group and private calls
- > Priority and preemption using dedicated MCX network
- > Access to broadband platforms via Wi-Fi and LTE
- > LMR/MCPTT interoperability through various gateways
- > Local and geographical redundancy options
- > Android™ and Apple iOS® smartphone, Windows® PC compatible

# Connect easily and affordably with the most advanced Mission Critical Services solution.

Real-time video, messaging and file sharing

Emergency Call for when the need to communicate is the highest priority

Integrated radios for MCPTT and LMR communications

Locate and track availability of in-field staff

Share up-to-the moment voice and data at the touch of a button
